

BUCK LIGHT UP

Company BUCK is specialist in architectural, medical, industrial, street and outdoor illumination. Founded in 1992 in **Belgrade**, since 2010 present in **Russia** with representative office in Moscow and since 2014 present in **Germany** with our own company.

CLIENTS

BUCK is lighting professional, working with architects, lighting designers, electrical engineers, contractors or directly with investors. Our clients are carefully selected professionals, who can recognize and appreciate the added value of BUCK's lighting systems: industrial and lighting design, energy efficiency, cutting edge optics, to name a few.

There is a long list of end- user clients using BUCK's equipment for illumination of their offices, sports facilities, production plants, showrooms and public spaces. They are spread in over 40 markets worldwide, and include some of world's biggest brands such as Coca Cola, Porsche, Audi, Pfizer, Novartis, Hemofarm, City Bank etc.

QUALITY

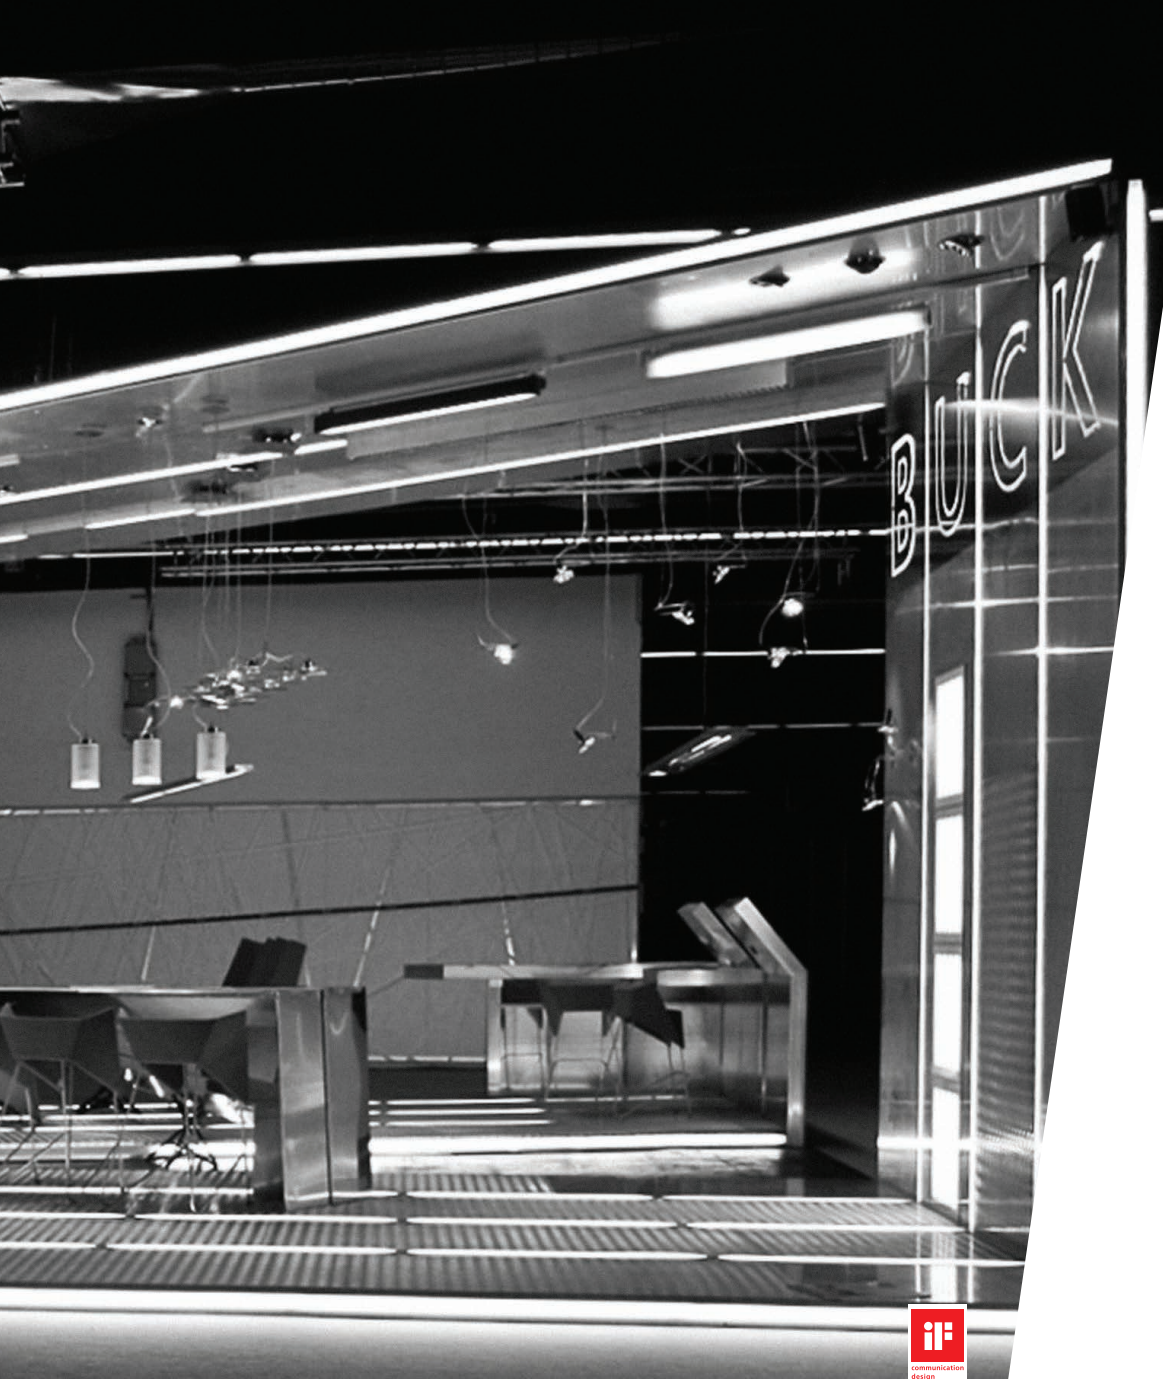

Certified management systems in diverse fields (ISO 9001, 14001, 27001, 50001 and OHSAS 18001) and certificates of individual luminaires and systems (IP degree, ISO Class, IK resistance, EMC compatibility etc.), are only a formal confirmation of high quality of our luminaires and lighting solutions. All luminaires, before independent testing, are tested in the factory laboratory.

ENTREPRENEURIAL ACCOMPLISHMENTS

BUCK is an engaged member of the entrepreneurial community, receiving numerous acknowledgments for business activities. Good business practice, innovation and promotion of design have made place for BUCK's representatives as speakers and participants at numerous conventions, lectures and business events.

BUCK LIGHT UP

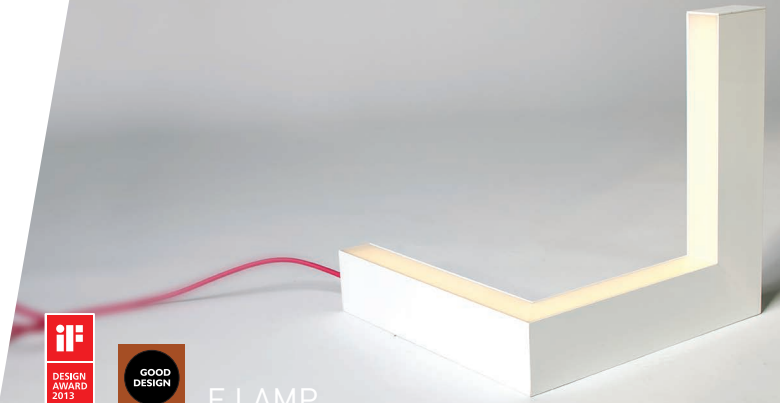

DESIGN AND RECOGNITION

BUCK's diligent approach to esthetics and functionality of our lighting systems is recognized by numerous awards (Red Dot, If, Good Design, Iconic, German Design...) in several aspects of design (industrial, graphic, communication, architecture).
