

WITH BIG INVESTMENT IN KNOWLEDGE AND INNOVATIONS, WE STRIVE TO IMPROVE INFORMATION SECURITY, AS A WAY TO PROTECT OUR INVESTMENTS.

Aware of fluctuation of employees as a normal lifecycle of companies and individuals, we manage the security of information and continuity of business, while protecting ourselves from accidental or intentional leakage of information, and provide the following:

- Confidentiality, integrity and availability of all business information;
- Respecting and fulfilling of legal requirements regarding information safety and other external and internal requirements we are committed to;
- Protection of information from unauthorized access;
- Establishing methodology of risk estimation containing criteria for safety information risk assessment and providing guidelines for managing those risks;
- Framework for setting up the targets of information safety;
- Elaboration of plan of business continuity in extraordinary situations;
- Constant training and awareness raising of employees regarding the safety of information;
- Keeping track and researching of actual or potential breaches of information safety and
- Constant improvement of information security management.

Belgrade,  
15/07/2016

Zoran Vasiljević,  
general manager
