

BUCK 's primary business is development and production of lighting equipment, trade of lighting equipment and its spare parts. In our business processes, BUCK pays special attention to health protection and workplace safety.

This is the reason we have established, applied, maintained and constantly improved the system of health protection and workplace safety, in accordance with the requirements of the standard OHSAS 18001.

The system of occupational health and workplace safety comprises all employees and all collaborating individuals included in our processes and present on our locations.

The management of BUCK is committed to:

- Prevention of injuries and threats to health;
- Constant improving of OH&S effect and OH&S management system;
- Complete compliance with appropriate legal and other requirements for health protection and workplace safety, related to the identified dangers and risks.

Our vision is:

NO WORKRELATED INJURIES, NO PROFESSIONAL AND WORKRELATED ILLNESSES

The strategy for completing our vision includes:

- Recognition the system of health protection and workplace safety as one of our top priorities;
- Establishment and maintenance of communication and constructive relations with interior and exterior stakeholders;
- Identification of dangers and risks related to our activities and products;
- Ensuring the commitment to health protection and workplace safety of the management and all individuals working for us or to our benefit;
- Encouragement of planning health and safety protection during work throughout the entire product lifecycle;
- Providing appropriate and sufficient resources, including training, for compliance with pertinent legal and other requirements with which we have agreed and in order to obtain the aims of protection of health and workplace safety on the existing basis;
- Valuing of performance of health protection and workplace safety regarding policy for health protection and workplace safety, compared with our aims and striving to improvement wherever possible;
- Encouraging contractors and suppliers to establish the management system for health protection and workplace safety.
